Comfort Cooling. Our comfort cooling air conditioning products offer a wide choice of capacities and unit types to meet the needs of virtually any retail, commercial, health and leisure environment.

### **Comfort Cooling - Airedale International Air Conditioning**

Very little energy is needed to make a well-designed house comfortable. Appropriate insulation, which is essential for a comfortable house, combined with passive solar design and a draught-proofed building, can create low or even no energy requirements for heating and cooling (see Passive solar heating; Insulation). Highly efficient homes with no heating or cooling input are possible across ...

Thermal comfort is the condition of mind that expresses satisfaction with the thermal environment and is assessed by subjective evaluation (ANSI/ASHRAE Standard 55). The human body can be viewed as a heat engine where food is the input energy. The human body will generate excess heat into the environment, so the body can continue to operate.

### **Thermal comfort - Wikipedia**

Air conditioning (often referred to as AC, A/C, or air con) is the process of removing heat and moisture from the interior of an occupied space, to improve the comfort of occupants. Air conditioning can be used in both domestic and commercial environments. This process is most commonly used to achieve a more comfortable interior environment, typically for humans and other animals; however, air ...
