Investment and speculation are somewhat different and yet similar because speculation requires an investment and investments are at least somewhat speculative. Investment usually involves putting money into an asset which is not necessarily marketable in the short run in order to enjoy a series of returns the investment is expected to yield.

What is the Difference between Speculation and Investment?

Speculation and Hedging in Segmented Markets the B-asset. The results depend crucially on the trading behavior of L-traders. More specifically, L-trader trades the risky A-asset for two reasons: speculating based on superior information about the A-asset's payoff, and hedging their investment in the B-asset. Depending on the strength of these two motives,
