METHODOLOGICAL ISSUES IN NURSING RESEARCH Methodological rigour within a qualitative framework Gerard A. Tobin BSc MSc RGN RMN RCNT RNT Lecturer, School of Nursing and Midwifery Studies, The University of Dublin Trinity College, and Clinical Nursing Research

Methodological rigour within a qualitative framework

275 Emerging Criteria for Quality in Qualitative and Interpretive Research Yvonna S. Lincoln Texas A&M University Not only are the boundaries of interpretive research as yet undefined, but criteria for judging the quality of such research are even more fluid and emergent. Developing criteria are nominated and cautions in applying them discussed. The author also

Emerging for Quality Qualitative and Interpretive Research

3 assumptions underlying research were taken up by many writing about approaches to social research and social research methodology in that period.

Issues in Mixed Methods Research

Element. Description . The case. Object of the case study identified as the entity of interest or unit of analysis. Program, individual, group, social situation, organization, event, phenomena, or process

Case Study Research: Foundations and Methodological

Autoethnography is a form of qualitative research in which an author uses self-reflection and writing to explore anecdotal and personal experience and connect this autobiographical story to wider cultural, political, and social meanings and understandings. Autoethnography is a self-reflective form of writing used across various disciplines such as communication studies, performance studies ...

Autoethnography - Wikipedia

Chapter 3 Common Qualitative Methods. In this chapter we describe and compare the most common qualitative methods employed in project evaluations. 3 These include observations, indepth interviews, and focus groups. We also cover briefly some other less frequently used qualitative techniques.

Part II: Chapter 3: Common Qualitative Methods

Qualitative research methods could help us to improve our understanding of medicine. Rather than thinking of qualitative and quantitative strategies as incompatible, they should be seen as complementary.

Qualitative research: standards, challenges, and

Participant observation is one type of data collection method typically used in qualitative research and ethnography. It is a widely used methodology in many disciplines, particularly cultural anthropology, European ethnology, sociology, communication studies, human geography and social psychology. Its aim is to gain a close and intimate familiarity with a given group of individuals (such as a ...

Participant observation - Wikipedia

Qualitative research can be defined as, "A multi-method in focus, involving an interpretive, naturalistic approach to its subject matter. This means that qualitative researchers study things in their natural settings, attempting to make sense of or interpret phenomena in terms of the meanings ...

Positivist and Interpretivist Research - UKEssays

One in four Medicare patients hospitalized for acute medical illness is discharged to a skilled nursing facility (SNF); 23% of these patients are readmitted to the hospital within 30 days. The care transition from hospital to SNF is often marked by disruptions in care and poor communication among hospital and SNF providers. A study was conducted to identify the perspectives of sending and ...

Care Transitions Between Hospitals and Skilled Nursing

In a review of the literature, different opinions on the use of concepts, procedures and interpretation in content analysis are presented. However, there are similarities in the way the researchers explain the process: either they do it by using different distinguishing stages, (Burnard, 1991, Downe-Wambolt, 1992), or in running text (Berg, 2001, Catanzaro, 1988).
