The Semantic Web is an extension of the World Wide Web through standards by the World Wide Web Consortium (W3C). The standards promote common data formats and exchange protocols on the Web, most fundamentally the Resource Description Framework (RDF). According to the W3C, "The Semantic Web provides a common framework that allows data to be shared and reused across application, enterprise, and ...

Inference and Reading: A Practical Guide for School-Age Students. Inference and Reading: Much of what an author writes is implied. Authors expect their readers to fill in the gaps. So, to truly comprehend or understand much of what an author writes, we, as readers, have to use our inference skills. The more we are able to do this the better our inference and reading comprehension becomes.
